## SUMMARY

With 4+ years of experience as a Software Engineer, I specialize in developing scalable web applications using modern frameworks like Spring Boot and Angular. I am passionate about optimizing processes, improving performance, and delivering innovative solutions. My expertise spans backend, frontend, and database development, with a proven track record of improving system efficiency and ensuring high-quality deliverables.

## EXPERIENCE

### Full Stack Developer

09/2022– 09/2023

Infosys

Peru

- Migrated a legacy Java EE codebase to Spring Boot and Angular, reducing API response times by 30% and improving system scalability.
- Enhanced system stability by redesigning key modules, reducing bugs by 40%.
- Designed and implemented new features, boosting user satisfaction by 15%.
- Conducted rigorous testing and code reviews, ensuring 99% error-free deliverables.

**Technologies:** Java, Spring Boot, REST APIs, JSON, Angular 11, TypeScript, SQL Server.

### Software Developer

07/2021– 09/2022

Indra

Peru

- Built a secure reporting system from scratch using Maven and Java, adhering to strict compliance standards.
- Automated data extraction workflows, cutting manual effort by 35%.
- Optimized reporting systems, reducing generation times by 40%.

**Technologies:** Java 8 & 11, Spring Boot, REST APIs, JSON, Angular 11, SQL Server, Linux.

### Software Developer

01/2021– 06/2021

Synopsis

Peru

- Resolved 50+ monthly bugs, reducing critical issues by 25%.
- Delivered new features that improved application performance by 20%.
- Coordinated with agile teams, increasing project delivery efficiency by 15%.

**Technologies:** Java 8 & 11, Spring Boot, REST APIs, JSON, SQL Server, PostgreSQL.

### Java Developer

11/2018– 03/2020

Chain Service TI

Peru

- Built and enhanced billing systems, reducing transaction errors by 30%.
- Designed REST/XML APIs, increasing billing declaration processing efficiency by 20%.
- Led customer support initiatives, achieving a 90% satisfaction rate.

**Technologies:** Java 8, Spring Boot, REST APIs, JSON, XML, SQL Server, PostgreSQL.

## EDUCATION

---

**University of Passau**

*Master in Computer Science*

Germany

10/2023– ongoing

**Saint Ignatius of Loyola University**

*Bachelor in Computer Science*

Peru

03/2015– 07/2019

## TECHNICAL SKILLS

---

- **Programming Languages:** Java, C++, Python, Java EE.
- **Backend Frameworks & Tools:** Spring Boot, Maven, REST APIs, JSON, XML.
- **Frontend Development:** Angular, TypeScript, HTML, CSS, JavaScript.
- **Databases:** SQL Server, MySQL, PostgreSQL, SQL, Server Reporting Services.
- **Testing:** JUnit, Mockito, Postman, SoapUI.
- **Version Control & Collaboration:** Git, GitHub, GitLab.
- **Development Environments:** IntelliJ IDEA, Eclipse, Visual Studio Code.
- **Methodologies:** Agile, Scrum.

## Languages

---

- German: Elementary (B1 – ongoing)
- English : Professional (C1)
- Spanish: Mother Language (C2)

## Hobbies & Interests

---

- Cooking
- Painting
- Board games
