• Angestrass 29, Passau, Germany • Open to remote, hybrid, onsite

With 4+ years of experience as a Software Engineer, I am driven by a passion for continuous learning and innovation. I am adept at back-end, front-end, and database development. Throughout my professional journey, I have focused on collaborative development, specializing in building web applications and enhancing product quality through code optimization and proactive problem-solving.

### Skills

#### **Back-end:**

Java, Springboot, Maven, REST APIs, JSON, XML, C++, Python, Java EE.

#### **Database:**

SQL Server, MySQL, PostgreSQL, SQL, Server Reporting Services.

#### **Front-end:**

HTML, CSS, JavaScript, Angular.

#### **Testing:**

JUnit, Mockito, Postman, SoapUI.

#### **Tools:**

Visual Studio Code, Git, GitHub, GitLab, Eclipse, IntelliJ IDEA, NetBeans.

#### **Methodologies:**

Agile, Scrum.

### Languages

English (C1)

German (A2)

Spanish (Native)

### Interests

Cooking

Painting

Board games

### Experience

#### **Full Stack Developer**

09/2022 – 09/2023

*Infosys, Lima, Peru*

- Migration of a legacy Java EE code to a modern Spring Boot and Angular architecture, using REST API microservices to enhance performance.
- Redesigned code to improve performance and reduce bugs.
- Implemented new features to enhance functionality and user experience.
- Conducted testing and code reviews to ensure high-quality deliverables.

#### **Software Developer**

07/2021 – 09/2022

*Indra, Lima, Peru*

- Developed a project from scratch using in a Maven Java project.
- Enhanced system efficiency and reporting processes, contributing to improved security monitoring and risk management.
- Led a data extraction project, crafting SQL queries and scripts to process data from multiple systems, generating reports to identify security issues.

#### **Software Developer**

01/2021 – 06/2021

*Synopsis, Lima, Peru*

- Worked within an agile methodology on multiple projects focused on Java applications, addressing bug fixes and enhancing feature functionality.
- Contributed to the creation of new features based on user requirements and project needs, enhancing overall application performance.

#### **Java Developer**

11/2018 – 03/2020

*Chain Service TI, Lima, Peru*

- Contributed to the development and enhancement of Electronic Billing applications in Java with Spring Boot designed as microservices.
- Developed and maintained both REST and XML microservice APIs regarding billing declarations.
- Collaborated with the team to provide customer support, effectively addressing inquiries and resolving issues.

### Education

#### **Master in Computer Science**

10/2023 – ongoing

University of Passau, Germany

#### **Bachelor in Computer Science**

03/2015 – 07/2019

Saint Ignatius of Loyola University, Lima, Peru
