SUMMARY

Software Engineer with **4+ years of experience** in backend and full-stack development, specializing in **Java, Spring Boot, and API development**. Strong background in **SQL databases, microservices, and system optimization**, with a passion for scalable solutions. Adept at **problem-solving, Agile development, and cross-functional collaboration** to enhance customer experience and streamline operations.

EXPERIENCE

Master Thesis Student <i>Siemens AG</i>	04/2025– ongoing Germany
• Developing a security-maturity assessment framework for open-source software. • Partnering with Siemens AG R&D to align the model with real-world industrial needs.	
Full Stack Developer <i>Infosys</i>	09/2022– 09/2023 Peru
• Migrated from legacy to modern systems, increasing API performance by 30%. • Designed and implemented RESTful APIs, reducing response times by 20%. • Developed and optimized SQL queries, improving database performance by 25%. • Conducted rigorous testing and code reviews, ensuring 99% error-free deliverables. Technologies: Java, Spring Boot, REST APIs, JSON, Angular 11, TypeScript, SQL.	
Software Developer <i>Indra</i>	07/2021– 09/2022 Peru
• Developed and maintained financial applications, ensuring 99.5% system availability. • Automated financial reporting workflows, saving 35% of manual processing time. • Worked closely with cross-functional teams to implement data-driven business decisions. Technologies: Java 8 & 11, Spring Boot, REST APIs, JSON, Angular 11, SQL Server, Linux.	
Software Developer <i>Synopsis</i>	01/2021– 06/2021 Peru
• Improved bug resolution efficiency by 25% with debugging and testing optimizations. • Developed scalable microservices architecture, improving performance by 20%. • Optimized data processing, reducing system latency by 15%. Technologies: Java 8 & 11, Spring Boot, REST APIs, JSON, SQL Server, PostgreSQL.	
Java Developer <i>Chain Service TI</i>	11/2018– 03/2020 Peru
• Designed and implemented REST and SOAP APIs, increasing system efficiency by 20%. • Enhanced billing and transaction systems, reducing processing errors by 30%. • Led customer support initiatives, achieving a 90% satisfaction rate. Technologies: Java 8, Spring Boot, REST APIs, JSON, XML, SQL Server, PostgreSQL.	

EDUCATION

University of Passau

Master in Computer Science

Germany

10/2023– ongoing

Saint Ignatius of Loyola University

Bachelor in Computer Science

Peru

03/2015– 07/2019

CERTIFICATION

Scrum Foundation Professional Certificate (SFPC)

TECHNICAL SKILLS

- **Programming Languages:** Java, C++, Python, Java EE.
- **Backend Frameworks & Tools:** Spring Boot, Maven, REST APIs, JSON, XML.
- **Frontend Development:** Angular, TypeScript, HTML, CSS, JavaScript.
- **Databases:** SQL Server, MySQL, PostgreSQL, SQL, Server Reporting Services.
- **Testing:** JUnit, Mockito, Postman, SoapUI.
- **Tools:** Jira, Confluence, Git, GitHub, GitLab.
- **Development Environments:** IntelliJ IDEA, Eclipse, Visual Studio Code.
- **Methodologies:** Agile, Scrum.

Languages

- German: Elementary (B1 – ongoing)
- English : Professional (C1)
- Spanish: Mother Language (C2)

Hobbies & Interests

- Cooking
- Painting
- Board games
